

Product Information Spezialreiniger 2074

Description **Spezialreiniger 2074** is a liquid cleaner especially for the cleaning of moulds and core boxes. He has a low viscosity and therefore is also suitable for soaking baths. The dissolved surfactants are biodegradable and meet the requirements in terms of work safety and cleaning efficiency.

Spezialreiniger 2074 is silicone-free.

Field of use Moulding and core shop.

Application **Spezialreiniger 2074** is to use undiluted in supply condition.

Prior to use, the resistance of the surface to be cleaned needs to be checked. In particular with polyurethane materials thickness swells are possible.

First, wet the pollution well with the cleaner. After about 20 minutes, wipe the surface with a cloth. If heavily soiled, repeat the procedure.

Technical data	Appearance:	clear, colorless to yellow liquid
	Odour:	weakly amine
	Density (20 °C):	approx. 1,0 g/cm ³
	Flash point:	approx. 91 °C

Packaging Can á 20 kg

Storage Store **Spezialreiniger 2074** tightly closed and frost-free in a dry, well-ventilated place; protect from heat and direct sunlight.
Shelf life 12 months when properly stored inside in original unopened container.

Regulations and information **Spezialreiniger 2074** is classified and labeled according to the CLP regulation and corresponds to the current EC regulation.
